## FANS GET BIG KICK AT LOEW'S

World Series Results in "Times" Scoreboard Game Rooters Thrill

Baseball fans, who took in the world series opener via the Times scoreboard at Loew's yesterday, certainly are not out of the proceedings if they are any criterion of their interest in the game. The Times' scoreboard, which has been a feature of the Loew's since its opening, has been a great success. It has been a great success in that it has given the fans a chance to see the game in a way that is not only interesting but also profitable. The Times' scoreboard has been a great success in that it has given the fans a chance to see the game in a way that is not only interesting but also profitable.

# Walter Loses Relative

John Perry, Grandfather of Walter Johnson, Dies at Santa Monica Home as Idol Triumphs

Washington's most steadfast supporter, and Walter Johnson's greatest friend and rooter, died late Tuesday night, without realizing his hopes of seeing the Senators returned to their place at the top of baseball's peak. He was John Perry, grandfather of "Big Boy" Johnson, whose greatest interest in life was the success of Johnson, and the work of the entire Senator team.

# BUC CREW NOT DOWNHEARTED

McKechnie Says Defeat Will Not Discourage Club

Ready to Come Back Strong in Today's Game

Congratulates Walt Johnson on His Victory

BY BILL McKECHNIE  
(Manager Pittsburgh Pirates)

PITTSBURGH, Oct. 7.—Instead of being discouraged in any way over the loss of the first game to the Washington Senators yesterday, the Pirates are all the more determined to come back strong and clean up in the series.

I want to be one of the first to congratulate Walt Johnson on his victory yesterday. Johnson is a great player and a great leader. He is a great player and a great leader. He is a great player and a great leader.

Johnson had a good fast ball and a good curve and he had the Pirates hitting out of a hole. Johnson had a good fast ball and a good curve and he had the Pirates hitting out of a hole.

I think the Pirates yesterday answered the question about their steadiness, about which so many fans were anxious. They showed some classy fielding, Traynor, Wright and McKechnie were doing well.

The Pirates clubhouse after the game would have been interested to see how my boys took the setback. There wasn't a worry in the room. We all believe that we have the stuff and that it will assert itself in tomorrow's game.

SUDS' RALLY FAILS TO WIN BY ONE RUN  
SEATTLE (Wash.) Oct. 7.—After holding Salt Lake in check for seven innings, Oscar Bowser went wild in the eighth and let them win today's game over Seattle, 12 to 11.

SEATTLE (Wash.) Oct. 7.—After holding Salt Lake in check for seven innings, Oscar Bowser went wild in the eighth and let them win today's game over Seattle, 12 to 11.

JOHNSON SURE OF SOLON WIN  
(Continued from First Page)

series and though bothered for a while by a lame back he is now in perfect condition. Unless the boys go to pieces behind him he ought to win tomorrow.

JOHNSON HOLDS RECORD  
Walter Johnson of the Washington Senators now has an all-time strike-out record of 3219.

# UTAH GRID TEAM HERE TOMORROW

SALT LAKE CITY, Oct. 7.—University of Utah football squad will leave here tomorrow afternoon for Los Angeles where, next Saturday they will play with University of Southern California.

A week later Utah plays at Tucson.

# SAGECHICKS DEVELOPING GRADUALLY

Fuzz Merritt Progresses by Leaps and Bounds With Pomona Frosh

[EXCLUSIVE DISPATCH]  
POMONA COLLEGE, Oct. 7.—Under the watchful eye of Fuzz Merritt, former varsity star, the Pomona Sagechicks are developing more and more as a team.

There was a deafening roar from the crowd when Rice swung and missed the first pitch, marking the seventh successive strike scored by Meadows. A wide one, then a second strike came over, but Rice caught the next one and shot it over second, just out of the flying reach of Eddie Moore.

Joe Harris and Bluffs crossed the plate and although Meadows quickly retired Stan Harris for the third out, then turned the Senators back in order through the next three innings. The big damage had been done. There was a final sortie in the ninth, when George Goslin, facing Morrison, singled, was sacrificed by Judge and scored on Bluffs's second hit, but this was an anti-climax.

Except for Traynor's homer in the fifth and their threat in the ninth the Pirates were easily subdued. The National League had their chance to break through for Carver twice got to base after being hit by pitched balls. Meadows walked on Johnson's only pass and Grantham got to first on a wild throw by Peckinpaugh in the fifth. But Johnson and his mates put up an insurmountable barrier.

Plenty of good backfield material has shown up in Miner, Maule, Payne, Colley, Folsom, Frasure, Ritter, Townsend and others. The team will be light, but will have good ends and a fast, shifty backfield.

PORTLAND WINS OVER SACRAMENTO OUTFIT  
[BY A. F. NIGHT WIRE]  
PORTLAND (Or.) Oct. 7.—Rachac allowed six hits and three runs to Sacramento here today, but that was not enough and Portland won, 7 to 5, with eleven timely hits.

# PIELE IN BOUT WITH OLD RIVAL

Officer Riley Meets ex-Light-heavyweight Champ in Double Main Event

Jiminy Fiele of the Hollywood Athletic Club and Jimmy Bronson of the Santa Monica Athletic Club will step into the third series of their personal boxing tournament in the Hollywood Athletic Club gymnasium tonight.

The flyweights have met in two previous matches at the club. Bronson took the first decision by a close margin in the first meeting when he clipped Fiele with a hard right to the jaw in the fourth round. Fiele was wandering about the ring all but out when the bell rang. The second fight found Fiele in good condition and he won the decision but only by a few points.

Matchmaker Bob Howard has scheduled five other bouts and two wrestling matches on the same card. The I.A.C. orchestra will furnish music and a good turnout is expected as the Fiele-Bronson feud has attracted much attention from amateur fans.

FEW SEATS REMAIN FOR LOCAL CLASSIC  
Although it is still ten days before the Stanford-U.S.C. football game is scheduled to be played at the Coliseum, the seats left for sale are a mighty few. Secretary Gwynn Wilson, student manager.

## Southern California Sailing Season to Wind Up This Week With Championship Events

## YACHTS CLOSE RACING SEASON

Star and R Class Events at Harbor Last Event

Races This Week-End Decide Trophy Winners

Main Only Boat With First Place Cinched

The wind-up of the fall racing season of the California Yacht Club will be staged this week-end at Los Angeles Harbor, with eleven Class R and Star-class sloops entered for the final title for the trophies emblematic of Southern California sailing championship.

Blood-thirsty scraps are expected in both classes, the standing being so close that it will take the last race to determine the cup winners. On whether the wind Saturday and Sunday is the regular westerly or a light southerly breeze depends the outcome. In the "R" class two yachts, John D. Wyman's Alert III and Pierpont Davis's Patricia, have a chance for first honors, while each of the other four sloops may finish in second place.

In the Star-class, Harry Fisher, sailing Commodore Webb Wilson's Maia, has already clinched the championship, and either Tommy Lee's satellite or William Brown's Stella H. may take second prize.

Key Schauer's Movie Star I and S. K. Ring's George III, the other entries, are out of the running on account of their failure to participate in all races.

The standing by points to date in the "R" class follows: Alert III, 43; Patricia, 35; Debra, 27; Galliano III, 24; Canuck, 21; Aloha, 20. Standing of the three leaders in the Star class is as follows: Maia, 15; Satellite, 10; Stella H., 6.

Post-season match races between Rey Schauer, who won the spring championship with the Movie Star, and Harry Fisher in the Maia, for the club championship in the Star class, as well as the two season champions in the "R" class fleet, are being discussed in sailing circles. The races, if held, will probably be sailed on the 24th and 25th inst., which are open dates on the club program.

Trophies won during the season will be presented to the winning skipper at a Halloween dinner-dance to be held at the clubhouse of the California Yacht Club on the night of the 31st inst.

## Oregon Aggies Meet Gonzaga Eleven Next

(EXCLUSIVE DISPATCH)  
PORTLAND (Or.) Oct. 7.—The Oregon Aggies have picked a real team for their first serious game of the season when they meet Gonzaga next Friday at Corvallis. The game had been set for Saturday, but conflicted with the Oregon-Idaho battle at Eugene that day. The towns are close enough together so that a conflict in dates cuts down attendance.

Gonzaga plays four Coast conference teams this year—the Oregon Aggies, Montana, Idaho and Washington State. Gonzaga has lost four veterans, including Houston Stockton, one of the greatest backs in the West. Nevertheless, the Spokane school is expected to give a good account of itself against the Aggies, for Coach Clippert Smith has a fast and strong aggregation. The old idea of considering Gonzaga a practice game has gone out of fashion among the northern schools.

But the Oregon Aggies look like one of the coming teams in the conference. Some uncertainty about them existed at the first of the season. That has passed away and all who have seen them believe that the Aggies will be stronger than they have been for several years. Just where they will land in the conference ranking can only be conjectured, so many of the other teams have strengthened, too.

## KIWANIS TO HOLD TITLE GOLF MEET

The Los Angeles Kiwanis Club will hold a golf tournament, starting at 1 p. m., at the Brentwood Country Club today. Dr. Rice will be chairman of the day. Many prizes have been selected and will be awarded the winners.

Members of the Los Angeles Kiwanis Club, who will participate in this tournament are as follows: E. L. Banta, Dr. C. J. Blos, Clint Marshall, Dr. Carl P. Dineen, L. M. Kuehn, J. A. Lyon, W. O. Roster, C. C. Roeschke, Dr. Ross Crothers, Dr. O. L. Bates, Harry Peterson, W. O. Roster, L. M. Kuehn, L. M. Kuehn, G. L. Ferris, Bill Feltz, Dr. C. L. Ladd, Dr. J. J. Brown, Victor White, E. K. Rottman, J. W. Brinson, Guy Murphy, Ray Meach, A. N. Anderson, Charles Cooper, William A. Smith, J. C. Miller, L. C. Miller, A. E. Mahony, T. V. Allen, Paul Jones, Martin Bitt.

## CARD TWENTY-EIGHT ROUNDS AT ARMORY

Twenty-eight rounds of real fighting will be offered cash customers at the Pasadena Armory tonight. Young Stribling, with Pa and Ma Stribling, have promised to attend as guests of Manager Morris Cohen.

Whirlwind Mickey Erno and Pedro Pablo, flyweights, are down for the ten-round main event. It is a rematch. Erno won before, but it was not by any wide a squeak and he will have his hands full tonight.

Henry Gonzales and Louis O'Shea, who fight at 114 pounds, will mix in the eighth-round go.

Frank O'Brien and Pete Arbus, middleweights, will mix in the six-round bout of the evening.

Tony Flores and Happy Romero will open the show.

**THIAN LAST OF CLAN**  
C. K. G. Billings, the famous light harness enthusiast, has only one real horse left of the famous group he took with him to the Pacific Coast years ago. Old Thian, the champion sired by Bingham, still survives. He is 22 years of age and takes things easy out in California.

## SIX SERIES EACH

BY PEG MURRAY

WALLY SCHANG CAUGHT IN THE CHAMPIONSHIP OF 1918, '19, '21, '22, '23

How does it feel to play in a world series? Not so very many ballplayers can answer that question, as the number that gets into the annual post-season contests is naturally limited. But how does it feel to play in six world series? Only Babe Ruth, Eddie Collins and Wally Schang of all the men now in the major leagues, can answer that question.

The Babe divided his championship series equally between Boston and New York. He pitched for the Red Sox in 1915, 1916, 1918, and 1919, and played for the Yankees in 1921, 1922 and 1923. While the fame of Bambino's home run activities has far exceeded his pitching endeavors, he was a first-class southpaw, and hurled a total of twenty-nine scoreless innings in the 1916 and 1918 world series.

As a batter, his greatest feat was hitting two homers in one game and three in one series, in 1923. On the other side of the ledger, it must be related that George Herman struck out a total of twenty-one times in his six world series. His most famous strike-out was in the eighth inning of the final game in 1923, when "Rogey" Ryan fanned him with the bases full and the Yankees needing two runs to win.

Eddie Collins, in his four series with the old Athletics and his two with the White Sox, has numerous world series performances to his credit. He scored twenty runs, made forty-two hits for a total of fifty-three bases, and accepted fifty-two chances at second in one series.

Wally Schang (whose initials stand for world series) played on Collins' team in 1918 and 1919 games, and on Ruth's team in the 1918, '21, '22 and '23 series.

If Everett Scott gets into the present games, it will make six times for him, too.

## BEAR GROWLS

BY HABERLIN MORIARTY

(EXCLUSIVE DISPATCH)  
BERKELEY, Oct. 7.—"Why did they ever try to make a guard out of Earl Jabs?" That question, asked in sarcastic tones, ran through the bleachers like wildfire at the California-Nevada gridiron fray last Saturday, when the Golden Bears rolled up fifty-four markers, thirty of which were accounted for by the work-horse Jabs, who slashed and smashed his triumphant way for the greater part of three quarters. Earl Jabs, straight football in his favorite role of fullback. This Jabs, you remember, was the bucking fool who did much to lay the hopes of Elmer Henderson last year at Berkeley. This Jabs, after brilliant playing in 1924, had been made over into a guard at the start of the 1925 season. But here is the story from the Golden Bear coaching staff—the explanation which, as ever, brands Andrew Latham Smith as the smart coach. It seems that good guard material was scarce at Berkeley when September 15 sounded the tocsin for official practice. Giddings, a behemoth guard, had suffered a knee injury on a cattle ranch last summer and was, therefore, counted out as an understudy for Carey, the Bruin ace guard. So Smith, knowing full well the ability of Jabs to take an overdose of punishment and fight to the last gun, experimented. In the meanwhile, Giddings shook off the knee injury and showed plenty of stuff in practice, with the result that Jabs was ordered back to play the position of his first love. Andy had made the wise move, for had Jabs plugged on at the guard berth he would have been a first-class line man, worthy of any adversary in the conference. A parallel case in the history of Golden Bear football will be remembered when Jack Witter, a fullback by trade, and a good one, was moved into the line at guard in 1922 because of the presence of the Iron Duke, Morrison, and Archie Neabitt at fullback. Aside from discovering that this Earl Jabs was a real row in the backfield, Andy Smith learned much about the ability of other aspirants to varsity uniforms when the Wolves of "Buck" Shaw were devoured by the Bear. Smith started with this team: Huber and Thatcher, ends; Cook and Coltrine, tackles; Ray and Carey, guards; Miller, center; Dixon and Griffin, halves; Blewett, quarter; Young, fullback. Blewett was being used to add to this big boy's seasoning for "Scoops" Carlson will be gone next year and Andy wants a worthy successor to the position made famous by Charlie Erb. "Hoggy" Evans and Carlson since the rise of California football since 1920. Andy Miller at center was being used because he had shown an edge over his rival, Baze, in the scramble for honors in replacing the big hole vacated by all-American "Babe" Horrell. Coltrine, the rangy right tackle, was being used in place of Sargent because he needed more seasoning and because he had given the coaches a good display of high-type football sense. All of the others in the opening line-up were tried and accepted Golden Bears, experienced in the demands of the Smith system and packing the Big C letters on their private sweaters.

However, the men who came to the fore when substitutions were in order were Jabs, aforementioned; Baze and Lausten. Baze went out in the first half with the fire of determination in his eyes. He backed up the line in grand style on defensive playing and, in all, gave Line Coach Dr. Boles a big surprise. Now it will be a battle royal between the "natural player," Miller, and the fighter, Baze, for center position. For center understudy, turned in good playing when he did get in, but his showing is not enough to make it a three-cornered race as yet. Lausten, who finished the contest for Huber at end and was a real find for the club, Lausten is a ball hawk from "way back." Many a time he ripped through and banged down the backfield charge before the ball carrier had reached the line of scrimmage. Lausten matches up with "Smoke" Francis, his companion end, in every department of the game. This Lausten will be heard from, undoubtedly.

As his "second team" backfield Andy used Perrin and Jabs at halfbacks before taking Brown out of fullback and rearranging the group to work Jabs at full. Carlson was quarter for this set of "horsemen." "Flash" Perrin is a terrific open-field runner, while Brown is a punter of unusual ability. Carlson, expected to continue in his place as varsity quarter, has proven for two years past that he knows all there is to know about directing the team.

The "third team" backfield matched yardage with the other two combines. In this set Max and Will performed at half, with Evans calling the numbers. The iron man, Jabs, was kept in to finish out the day. "Buck" Shaw, coming up from the last year's freshman team, is a power-plus runner when he gets under way. Charlie Will, though expected to trail for a safety man, has the stuff that makes great stars.

In the absence of Capt. "Tut" Inlay, whose back is still hurting from the wrench in the Santa Clara game, Jimmy Dixon, a converted captain on one combination of backs, while "Scoops" Carlson is the field captain on another set of backs. It is a good move, as both boys know the game and are ready at all times to assert the rights of the Golden Bear machine. For the time being the "Dixie" to Inlay" forward pass has been changed to "Dixon to Griffin." "Bull" Griffin, the lad who was the find of the Stanford-California fracas last year, is an expert pass snagger as well as a man who emulates the demon Inlay in the open field.

Dana Carey, to the eye just a lumbering guard, flashed into a new glory with his speed in "taking" men from the rear. Carey shot out from the ruck and nailed Gutterman when that Wolf had a clear field ahead. It was a regular Houdini act, Carey appearing from nowhere and jamming down on the game little Gutterman, who was the pride of the invaders. This was the play in which Gutterman broke his leg, the giant-and-the-plumy business being too much for Gutterman.

Tell Leader Martin Minney has devised a new system of cheering for his California rooters following the making of touchdowns. If the touchdown is converted the cheer goes "Jabs and Carlson," or whoever happened to participate in the score and consequent conversion, while if the touchdown is not converted only the name of the scoremaker is cheered. Minney says that with all of the numerous touchdowns being made it is necessary to shorten the ritual so that the rooters will be ready for another blast of appreciation.

MANY FANS IN D. C.  
Washington, D. C., has twenty-one baseball diamonds, with nearly 80,000 boys eager to play the game.

## Weekly Health Talk

by Barclay L. Severns

It is a well-established fact that many die every year from misusing the digestive organs. Wrong food combinations can cause almost instant death. Acute indigestion is caused by the carbon gas generated from the struggle that takes place three times a day in the stomach. If allowed to continue until the poison seriously affects the heart the end comes almost instantly.

In spite of our increased knowledge and our better sanitary conditions, disease is on the increase. More doctors, surgeons, hospitals, instruments and nurses are needed. Persons are being snatched by death, just when they have gained the necessities for a rich, full life. Stop and think of those you have known that are now out of this world, who should still be useful. Some one is dying all the time, and unless you take the best care of yourself, your call may come too soon. A little indiscretion at today's meal may cause an early funeral for you.

People often say, "He died very suddenly," but this is not usually the case. The human body can stand a lot of punishment, but each little bit it receives is leaving an impression. These accumulated impressions may cause sudden death.

If you live so that you constantly rebuild the whole body—organs, nerves, bone, flesh and brain—you will then be able to keep out the enemies of life because you cannot be sick unless you let these lodge in the system.

Matter that has passed usefulness and is tissue.

Articles eaten that possess no food value.

Wrong food combinations.

If you control these four enemies you health will be good. The food eaten will be digested. The perfect food will cause tissue to grow instantly in any organ of the body. Such a food will make such fine blood that wounds will heal without receiving any attention.

But the foods when eaten in wrong combinations are often antagonistic to each other when in the stomach at the same time. In fact, there are but few foods that go together well. In the first place there are but few foods that will digest in exactly the same time. Even foods that are supposed to be in the same class will not always digest at the same time, some taking thirty or more minutes longer than the others.

You should keep one thought in mind when eating and that is that the food you eat must be made into new tissues of the best quality. The whole body is made of tissue. The pork-made tissue is very different from beef-made tissue; you can tell the pork eater by looking at his skin.

As many foods do not harmonize in the stomach, it is best to only eat one food at a time. In the earlier days only one food was generally eaten at a meal and that is why they were healthier than we are now. We are not healthy as a race because we eat too many different foods at a meal. No one

## HUGE ENTRY FOR DOG SHOW

Entries for the fourth annual dog show of the Hollywood Kennel Club, to be staged the 23rd and 24th insts., are rapidly approaching the 1000 mark, with motion-picture stars and dog fanciers listing their pedigreed pets for the banner event of the season in the West.

The entry limits, having been extended until Saturday night, Claude Hill, secretary for the show, reports that more than 950 dogs have been entered in competition for the 404 prizes offered.

All breeds of dogs recognized by the American Kennel Club are included in the fifteen classifications, each of which embraces a score of divisions, from puppies to teams, braces or whole families.

The exhibition promises to be a real event in cinemaland, with a majority of the celebrities of the picture world entering their pets. Mary Pickford has offered a special trophy for bulldogs; Douglas Fairbanks for collies; Harold Lloyd for airedales; Mrs. Mary Christie for Boston terriers; William Beaudine for cocker spaniels. Al and Charlie Christie offer a prize valued at \$100 for the best dog in the show.

can possibly eat all the courses that most of the well-to-do people eat and be healthy for any length of time. It seems a pity that people will be more careful of their money than they are of their health, for, without health, money soon ceases to be of value to us.

## COLONELS WIN OVER ORIOLES IN SERIES

(EXCLUSIVE DISPATCH)

BALTIMORE, Oct. 7.—The Louisville Colonels today beat the Baltimore Orioles, 7 to 1, in the fifth game of the "little world's series." The Colonels have now won three games to the Orioles' two. Baltimore's single run came in the eighth inning when Maisei smashed a home run out of the park.

## MISS PALMER HOLDS RECORD

The women's record for throwing a baseball—226 feet—is held by Miss Gladys Palmer of Madison, Wis.

LAKE ARROWHEAD TO HAVE GOLF TOURNAY

Lake Arrowhead is going to hold another invitational golf tournament tomorrow, Saturday and Sunday at the new Grass Valley golf links. The nine-hole course has grass greens and fairway located at an altitude of 6000 feet.

According to H. M. O'Malley, president of the golf club, there will be prizes to winners and runners-up for low gross and net scores in each class—the event being eighteen holes medal play; Class A, being scratch to 8; Class B, 8 to 16, and Class C, 17 to 30.

Willie Hoars, well-known local professional, will have charge of the tournament, and those entered may play either Friday, Saturday or Sunday.

## MALONEY HEADS P.A.A.A.U.

Harry Maloney of Stanford University was recently elected president of the Pacific Association of the Amateur Athletic Union. Walter Christie is handicapper.

## Firestone

## Why Gum-Dipping is so Important to Car Owners

GUM-DIPPING—the Firestone extra process builds into tires extra quality by impregnating and insulating every fiber of every cord with rubber.

This exclusive method is carried out in special Gum-Dipping plants, after which the cords are put through the usual calendering process.

By this method, added strength and flexibility are imparted to the cords, making Gum-Dipped Balloons most serviceable and enduring over rough roads.

Save money — buy Gum-Dipped Balloons now—while prices are low.

## NEW YORK OUT TO HALT CRIME

City Bestirs Itself as Wave of  
Sin Increases

Judges Speed Up Trials and  
New Police Added

Residents Deny Aspersions  
on Moral Status

(BY A. P. NIGHT WIRE)  
NEW YORK, Oct. 7.—Father Knickerbocker, beset by grooks and accused by reformers of leading the nation astray, is bestirring himself to catch and punish murderers and burglars. But he insists that morally he is not as bad as he is painted.

Seven judges are speeding up jury trials of criminals and the addition of 540 men and twenty-five women to the police force has been authorized because a crime wave in the last few days has seemed to be at high tide.

One opinion as to the extent of crooked activities is that Judge Otto A. Rosalesky of General Sessions, where criminals are tried. He thinks that during his twenty years on the bench conditions in New York were never worse than they are now.

Back from Europe yesterday, he contrasted conditions as to crime here unfavorably with those abroad.

"In England and France the criminals are terrified by the thought of the sentences they may receive," he said. "Unfortunately our parole boards instead of holding criminals charged with serious crimes, liberate them with the minimum sentences."

In the courtrooms yesterday so many cases were disposed of that clerks could not make a complete record of them. Meanwhile there was a comeback to charges made in Washington by the Methodist Episcopal Board of Prohibition, Temperance and Morals that New York is a menace to the rest of America because of its output of salacious literature and plays and wet propaganda.

"Everyone who knows New York knows that there are no better churches, nor more devoted church members anywhere," said Miss Anna M. Matheson, registrar of the "struggle for existence." In New York is so keen that the average resident of New York has neither the time, money nor energy to rush about in search of indecency. Some people who are eminently respectable come to New York for a fling and seek thrills that would make them blush for shame at home.

M. A. Hagensee of Des Moines, newly-elected president of the National Poultry, Slaughter and Egg Association, said:

"I've been looking over the city and it is as clean as any I've been in."

**CONTRERAS  
SAYS BENCH  
TOO LENIENT**

Chief Enforcer Complains  
That Superior Judges Go  
Easy on Bootleggers

Some Superior Court judges are too lenient in liquor cases, George Contreras, chief enforcement officer of the District Attorney's staff, yesterday declared in a letter to Dist. Atty. Keyes. The District Attorney announced he will take the matter up with the various judges and ask them to impose severer sentences.

"It is very discouraging to the department to present a concrete case in Superior Court only to have it fall by the wayside, legally speaking, and have the defendant walk out of court and give us the laugh," he said in the letter. He said he realized the courts were accustomed to handling big cases and thought this was the reason that Wright-Act violations are not handled with more vigor.

"Many attorneys prefer to have liquor cases tried in Superior Court rather than in Justice court because the fines are smaller," he said. "The average bootlegger is not afraid of a fine, and if jail sentences were handed out more frequently there would be fewer violations of the law."

"This department is working night and day to apprehend bootleggers and it is no more than right that the judges should uphold the officers in enforcing the law."

The chief enforcement officer illustrated his remarks with the citation of several cases in which he thought less than justice had been done.

**WARSHIP'S  
GUN TESTS  
FOR TODAY**

California Will Fire Short  
Range Practice Before  
Leaving for North

Gunnery practice of the dreadnaught squadron will be inaugurated off San Clemente today by the fleet flagship California when she fires short-range battle practice a week in advance of the fleet schedule that she may depart for the Puget Sound navy yard on the 10th inst. for annual overhaul.

The other ten units of the battleship divisions in port will fire the elementary practice next week, together with battle torpedo practice.

It was announced yesterday aboard the U.S.S. California that Admiral Charles F. Hughes, new commander-in-chief of the battle fleet, will arrive in Los Angeles at 2:30 p.m. of the 14th inst. and that he will hold his first aboard the U.S.S. Pennsylvania, temporary flagship, the following day. Admiral Hughes is now in Washington to testify before the aircraft investigating board.

The U.S.S. Seattle, flagship of Admiral Samuel S. Robison, commander-in-chief of the United States Fleet, left here yesterday morning for the New York navy yard, where she will undergo overhaul. Admiral Robison, now in Washington before the aircraft board, will rejoin her at New York on November 2.

## FIRE LAWS VIOLATED, CITY TOLD

Committee Informed That  
Exits and Escapes Are  
Allowed to Be Blocked

Charges that the fire prevention laws of Los Angeles are being violated and that fire escapes and exits are permitted to be blocked, were made to the City Council's Police and Fire Committee yesterday afternoon by Frederick H. Cowles, who said that he was four years an investigator for the City of New York.

Cowles, who is now a resident of Los Angeles, showed photographs to the committee to sustain his claim, his charges that fire escapes and exits were permitted to remain in a condition that would prevent their effective use in case of fire. Cowles said he was not primarily attacking the local Fire Prevention Bureau, but was making his statement as a "matter of public duty."

He also said that parked automobiles were permitted in front of theaters so that in case of fire the escape of persons from the buildings would be hampered.

Chairman Sparks presided at yesterday's meeting of the committee and those in attendance included Mayor Croy, President Frankenstein and Commissioner Rochester of the Fire Commission, Chief Building Inspector Backus, Deputy Fire Chief Davis and Capt. Pieret, in charge of the Fire Prevention Bureau.

President Frankenstein asked that in fairness to Fire Chief Scott, who is absent from the city, the charges of Mr. Cowles be referred to the Fire Commission for investigation and report, to be made after Chief Scott had returned. This action was taken.

## FILM STAR FILES SUIT FOR DECREE

Anna Q. Nilsson's Divorce  
Based Plea on Grounds of  
Cruelty and Nonsupport

Partially concealed behind the true names of the principals, the fact that discord has supplanted harmony in the home life of Anna Q. Nilsson, screen star, was revealed yesterday in a divorce docket entry reading: "Gunnerson, Anna vs. J. Marshall." The action was filed Tuesday, but did not become generally known until yesterday.

Miss Nilsson, who married John M. Gunnerson February 14, 1923, seeks a divorce from her shoe manufacturer-husband on charges of nonsupport and "cruel and inhuman treatment." The complaint set forth that they separated on March 15, last.

Hollywood's film colony appeared surprised at the news. The Gunnersons had been regarded as happily married, despite a few mild rumors many months ago that Miss Nilsson was finding it somewhat difficult to balance her home life evenly against her film career.

Details of the asserted "cruel and inhuman treatment" were confined in the complaint to a statement that Miss Nilsson was subjected to constant "quarreling and nagging" over an extended period. A legal separation will satisfy the actress, the document indicates, as no mention of alimony is made, nor is any community property set forth.

## LAND GIVEN AS SITE FOR UNIVERSITY

Burbank Offers Acres on  
Which to Build School of  
International Relations

A deed to 279 acres of land in the Benmar Hills, Burbank, upon which it is proposed to establish a university of international relations, was presented yesterday by Mayor Crawford of Burbank to Rufus B. Von KleinSmid, president of the University of Southern California, as one of the trustees of the proposed educational institution.

The land represents an outright gift from the city of Burbank to the proposed university, which will be known as the Los Angeles University of International Relations. It is also a trustee of the proposed institution, which has already been incorporated, is situated at the head of University avenue, Burbank, on the upper slope of the first foothills there.

Dr. Von KleinSmid stated that he will leave Los Angeles for the East on the 18th inst. to interview personally many of the public spirited men of wealth of the nation in an effort to obtain their financial support for the project. The terms of the deed provided that building operations on the site must begin within the next six months. Should the plan mature into reality, Dr. Von KleinSmid stated, Southern California will have the only institution of this kind in the nation. It will require \$10,000,000 as a minimum to endow the institution, he said.

"DIRECT-UP" will direct you to the places that sell P. & G. Soap or any advertised product. Write or phone The Times, Metropolitan 0700.

## PLANS FOR COLUMBUS DAY

Order of Discoverer's Name Completes Program For  
Celebration of Anniversary Monday

Committees in charge of arrangements yesterday completed their program for the Columbus Day celebration in this city next Monday by Los Angeles county councils of the Knights of Columbus. The program will be concluded at night with a banquet at the Biltmore Hotel, to be attended by members of Knights of Columbus councils from every section of the county. The address of welcome to the guests will be made by B. J. Leonard, master of the fourth degree of the order for Southern California.

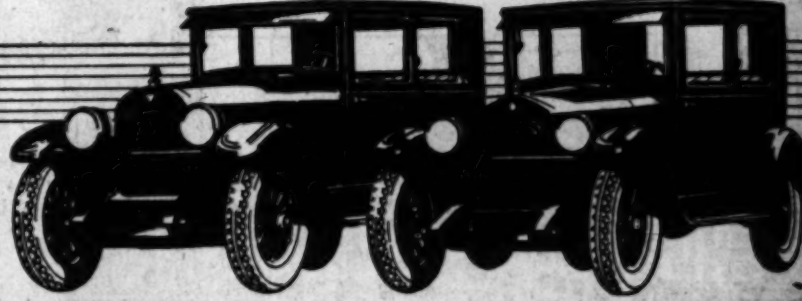

Thomas P. White will be toastmaster and the speakers will include Michael E. Griffith, State deputy of the order for California; United States District Judge Henning, former Superior Court Judge Robert M. Clarke, Enrick Piana, Italian Consul to this city, and others.

Singing, dancing and musical features by talented local artists are promised. Rt. Rev. John J. Cantwell, bishop of Los Angeles and San Diego, will deliver the invocation; address of welcome by Bernard J. Leonard; "Our Order" will be told by Michael E. Griffith, a California State Deputy; "American Citizenship," by former Judge Robert M. Clarke; "My Country, 'Tis of Thee," by Judge E. J. Henning, United States District Court, State manager, L. A. Morris; assistant director, Robert Duncan; Lewis A. Kerwin at the piano; guitar players through courtesy of E. J. Wilson's studio; musical director, P. M. Ferrish.

# SANTA MONICA

WILL EXCEL IN INDUSTRY

Most communities frankly and assiduously court industry. Some accept it as a sort of necessary evil in their midst. And some shudder at the thought of its presence.

Industry, too often, is interpreted as smoke, dirt, noise, odors and living conditions that are more or less unideal.

With such conditions Santa Monica has nothing in common and no tolerance. Neither is the location a natural or logical one for the heavy industries. But Santa Monica is destined to shine in industry as well as in ideal homes, hotels, clubs and playgrounds.

Some day Santa Monica will be known as the home of art, artists and craftsmen. Just as Santa Monica will have the cream of homes, hotels, clubs, playgrounds, etc., so it will have the cream of art, skill and craftsmanship. There will be no inconsistency in this, but there will be co-operation, patronage and harmony of ideals.

As Santa Monica is the end of the trail toward the setting sun so is it the apex of thought and ideals.

There are three things that glorify work—art, craftsmanship and service. We have begun to glimpse the science of service. We are beginning, slightly, to think of art as an essential part of existence. And we are, generally, inexcusably careless of craftsmanship.

Some day we will get a new vision and a new spirit. We will take seriously in all things—and in the humblest task—the line in the Great Sermon, "Be ye therefore perfect."

Art and craftsmanship are two great fields lying before us for development. It is wholly logical that Santa Monica should take a leading part in their development. And this will make the higher types of industry look toward Santa Monica.

Santa Monica industry, therefore, instead of being an offense, will be a joy, an inspiration and an unmixed blessing. Almost perfect climatic comfort, great beauty of surroundings, and an inspiring state of mind will attract the highest thought and be manifested in industrial economy, efficiency and perfection.

It was no accident that the earth-encircling airplanes were made in Santa Monica. Nor is the airplane the only product of masterful skill and industry that shall start at Santa Monica and become famous around the earth.

MITCHEL FIELD  
AVIATORS' GOALAces of World Gather for  
Air TournamentCivilians in On-to-New York  
Point ContestMany Prizes to Bring Out  
Mettle of Flyers

(BY A. P. NIGHT WIRE)  
MITCHEL FIELD (N. Y.) Oct. 7.—Aviation's international celebrities were either at this flying center or headed this way by train and plane today for the national air races which open tomorrow with military and civilian flyers participating in what may be the largest air meet in history. Five

## CLARK PALACE GOES BEGGING

(BY A. P. NIGHT WIRE)  
NEW YORK, Oct. 7.—The \$7,000,000 Fifth-avenue palace of the late Senator William A. Clark of Butte, Mont., with 121 rooms and thirty-one baths, is going begging at \$2,000,000. Real estate brokers regard the land on which it stands as more valuable than the building and say the house depreciates the site because of the cost of raising it. Mrs. Clark does not care for her mansion because she prefers to live in California.

hundred planes are expected to bring Army and Navy aviators and civilians from various parts of the country.

Civilians in an on-to-New York race ending today furnished the preliminary to a three-day racing program of ten events which starts tomorrow and winds up with the Pulitzer speed classic Saturday afternoon.

**PRELIMINARY RACE**  
Forty-six flyers entered the on-to-New York race, from which Army, Navy and air-mail pilots

were excluded. The entrants were from such widespread places as Concord, N. H., Lakeland, Fla., Temple, Tex., Santa Monica, Cal., Denver and Cleveland. The winner is determined on the basis of total points computed for average speeds, distances covered, passengers carried and engine horsepower. Eight prizes totaling \$5000 are offered.

Three races are scheduled for tomorrow, two being free-for-all races. In planes of different carrying capacities, with prizes of \$1000 in each and the third being the Liberty Engine Builders' Trophy race for two-places observation planes for military flyers only.

In the last event the two fastest French flyers, Capt. Belletier d'Olay and Capt. Lefebvre, are entered with the two fastest planes which they brought from France. Ten American Army aviators, flying chiefly de Havilland, are tentatively entered, with three Navy flyers and one from the Marine Corps.

**COURSES DIFFER**  
The civilian races are to be twenty times around a five-mile course. In the military race the planes will go fifteen times around a course of twelve miles.

Capt. Rene Le Fonck, French aviator, credited with seventy-five enemy planes during the war, arrived in New York and it was said he would fly an American plane in one of the races. Eddie Rickenbacker, American ace, also came yesterday, but it is not expected he will participate. Col. W. A. Bishop, the Canadian ace arrived last night and will fly three times over New York some time this week. President Coolidge's air board is expected to attend the meet, as well as Army and Navy flyers.

**Class Tussle at Stanford Won by Sophomores**  
(BY A. P. NIGHT WIRE)  
STANFORD UNIVERSITY, Oct. 7.—Three hundred members of the freshman class were doused in a three-foot deep mudhole here before the sophomores could claim a victory in the annual sophomores-freshman "mud fight." It is estimated that 100 second-year classmen were given a "mud pack."

Strategy and experience won the contest for the sophomores. Their members appeared stripped to the waist and with heavily greased backs. The first to be tossed into the mud remained there and prevented the freshmen from throwing other 1925 men in.

**PLANT NEARLY COMPLETE**  
(REUTERS DISPATCH)  
SAN ANTONIO (Tex.) Oct. 7.—A \$15,000 fruit and vegetable dehydrating plant, the first of its kind in operation here within sixty days, according to C. C. Leal, secretary of the San Antonio Manufacturers' Association. The new plant will employ twenty-five men at the start.

ACCUSED BISHOP  
BRAVES FROWNSConservatives at Convention  
Shrug ShouldersDivine Smiles on Critics  
and Supporters AlikeModernist Crusader Trains  
Guns on Dogmas

(REUTERS DISPATCH)  
NEW ORLEANS, Oct. 7.—A sweet-faced venerable man, whom

courts of bishops have twice pronounced a heretic, marched in the stately and stately piece of medieval pageantry with which the Episcopal Church of the United States opened its great triennial convention here today.

The gentle old rebel, who bore himself with dignity and bearing impartially on fundamentalist and modernist alike, was William Montgomery Brown, bishop of Arkansas, who this week awaits final adjudication and probable excommunication at the hands of his brother bishops.

Not only did Bishop Brown appear in the open air services which the convention opened, but he also sat through the first session of the house of bishops in the afternoon when he entered the hall he had some difficulty in finding his seat and it was Reginald Heber, bishop of Fond du Lac, Mich., and the high of high churchmen, who gently led him to his place. It is a conspicuous one of the left of the center aisle and three rows from the presiding bishop's dais.

Three hours before the devotionary pageant began among the moss-hung live oaks of Audubon Park, which used to be a sugar plantation and was given to the people of New Orleans as a gift of refuge, Bishop Brown appeared before the altar rail of Christ Church Cathedral to participate with other bishops in the early communion service, and participate he did.

**EYEBROWS ELEVATED**  
When the news spread among the more conservative clergy that they shrugged their eyebrows, elevated their eyebrows and, with a lightness that was not unbecoming to a certain pliancy, asked one another, "What will Brown do next?" Nobody knows.

The fact remains that he is very much here. For a man who says he is sick and who manifestly is old—he is past 70 years of age—Bishop Brown is nevertheless an extraordinary penetrating thorn in the flesh and steadily a vocal fly in the ointment.

At the onset of several gatherings which he has addressed within the last twenty-four hours, the asserted heretical bishop of Arkansas—for he will be a bishop and is suffered to enjoy his privileges as such—declared that many Episcopal clergymen have been compelled, as a matter of preserving their self-respect and their spiritual integrity, to interpret the words of the Apostles in the Nicene creeds symbolically, then, with a wide and spacious gesture, he asked, "Why should I go out while the church is full of heretics?"

Epitomizing certain declarations and dogmas of the church and of the Bible which may be conveniently described as fundamentalist, Bishop Brown added, "the world is tired of them and of us in account of them."

**A LIVING CHURCH**  
"What I want," he continued, "and what you want, if you want anything above the immediate needs of the immediate hour, is a living church for a living world. The church of today cannot continue to fulfill its mission if it continues to say, 'thus far and no further shall thou think.'"

"That is the issue—a living church for a living world. The issue is not what becomes of sick, old Bishop Brown."

"It is not that I simply dissent to the creeds. I believe them. I believe them as symbolic utterances of mankind's spiritual struggles and aspirations and as such they mean a thousand times more to me than they did in the days before anybody thought of calling me a heretic."

"I want to remain in the church. I want it more than ever before. But I want to remain in the church only on the principle that a preacher's value depends solely on his freedom to learn and learn and learn."

**PRESIDING BISHOP QUESTION CONSIDERED**  
(BY A. P. NIGHT WIRE)  
NEW ORLEANS, Oct. 7.—Election of a president of the house of bishops and consideration of the question of election of a presiding bishop of the house of bishops marked the formal opening today of the 45th triennial convention of the Protestant Episcopal church of the United States.

Rev. E. M. Stiles, D.D., rector of St. Thomas Church, New York, and bishop coadjutor-elect of the diocese of Long Island, was elected president of the house of bishops. Dr. Stiles, who will be consecrated as bishop after the close of the convention, was elected by a vote of 267 to 247, over Rev. George Craig Stewart, rector of St. Luke's Church, Evanston, Ill. Rev. H. H. Cowell, D.D., San Francisco, was nominated, but withdrew his name.

With Rt. Rev. Ethelbert Talbot, D.D., bishop of Bethlehem, presiding, the house of bishops opened its deliberations by naming Bishop William C. Brown, Virginia, chairman of the house, and re-electing Rev. Charles T. Pardee, D.D., New York, secretary.

As soon as the house of deputies was organized, Rev. Carroll N. Davis, New York, was elected secretary. Assistant secretaries appointed by the house of bishops were: Rev. John F. Plumb, Hartford, Ct., and the Rev. Alfred Lockwood, Pendleton, Or.

The case of Bishop William Montgomery Brown, a twice convicted of heresy by church courts, did not come before the conference. Bishop Brown marched in the procession of bishops at the Audubon Park ceremonies and sat in the afternoon session although he was not in his seat when the house formally opened. He came in later and took his seat, but did not join in the discussion.

It was said that his case may be brought before the house tomorrow. At the session of the bishops which opened today, the last general convention were formally received. They included R. A. Huston, bishop of Olympia, Wash.

Decipherable(REUTERS DISPATCH)  
SAN ANTONIO (Tex.)

Oct. 7.—Doctors at a local hospital received a surprise during a recent operation.

Dolores Martinez of this City called at the hospital requesting treatment for swollen eye.

During the operation a large fragment of newspaper was removed from the eye. So large was the fragment that two words could be deciphered, "attendants said."

accomplished four most important facts).

Fernao Magalhães, a quien conocemos por Fernando Magalhães (Fernao Magalhães whom we know as Ferdinand Magellan), nació en Portugal en 1470 (was born in Portugal in 1470), y, al hacerse hombre, adoptó la carrera de marino (and on reaching manhood adopted the seafaring life), a la que le empujaba su carácter aventurero (to which his adventurous disposition prompted).

**BOY EATING MELON GETS SEED IN EAR**  
(BY A. P. NIGHT WIRE)  
SAN FRANCISCO, Oct. 7.—Little Johnny Houlihan tried to eat his way right clean through a big watermelon today with the result that a seed found lodgment in his right ear. His mother removed the melon from around Johnny's neck at the first cry of pain, and rushed him to a hospital, where the seed was removed.

**EVERY DAY**  
the American public is buying  
3000 General Motors Cars

The verdict of the public is the final test  
every manufacturer's plans and claims.

For five years General Motors has been at work on policies which would result in sweeping economies in the production and merchandising of its cars. Recently Chevrolet, Oldsmobile, Oakland, Buick, Cadillac presented a series of cars embodying these economies.

The public response has been unprecedented. Every General Motors factory is operating at capacity. General Motors dealers have been delivering an average of more than 3000 cars each business day.

We thank the public for this splendid patronage. It is justified by the car values—greatest values in automobile history.

## UNION OIL NET PROFITS LESS

Income in First Nine Months Smaller Than Year Ago

Sales of Crude Oil Show an Increase in Value

Anticipated Dividend Rise Fails to Materialize

Showing a slight decrease in net profits in comparison with the corresponding period of last year, the Union Oil Company of California released the first statement on the Pacific Coast of nine months' operation in the petroleum industry. The directors also announced the declaration of a regular quarterly dividend of 45 cents a share. The stock market had been expecting for some time an increase in the annual rate from \$1.80 to \$2.00 or better.

Net profits of the Union Oil Company for the first nine months of this year were approximately \$8,750,000, or the equivalent of \$2.22 a share on the stock outstanding, compared with \$9,000,000, or \$2.28 a share, in the corresponding period of last year, a decrease of \$250,000, or 2.3 per cent. Profits before depreciation, labor, etc., amounted to \$17,425,000 in the first nine months of this year, compared with \$17,500,000 in the first nine months of 1924.

Production of crude oil by the Union Oil Company and controlled companies for the nine months of this year approximated 11,150,000 barrels, a decrease of 50,000 barrels from the corresponding period of last year. Sales of crude oil and refined products amounted approximately to \$56,750,000, an increase in value of \$6,000,000. The report states that considerable quantities of gasoline and kerosene have been exported.

**CAPITAL EXPENSE**

Capital expenditures of the nine months' period approximated \$3,150,000, consisting principally of the cost of drilling new wells, the acquisition of distributing and service-station sites and the installation of marketing facilities.

Current assets, consisting of cash, United States government bonds and treasury certificates, accounts and bills receivable, oil inventories and materials and supplies on September 30, last, amounted to \$55,000,000, an increase of \$1,000,000 over \$54,000,000 on December 31, last. Current liabilities are about 64 to 1 of current assets. The quantity of crude oil, fuel oil, unfinished oils and refined products in storage approximated 25,100,000 barrels, compared with 23,470,000 barrels on December 31, last.

Current liabilities on September 30, last, approximated \$4,700,000, a decrease of \$150,000 from December 31, last. During the nine months there has been an increase in the mortgage debt in the hands of the public of \$1,150,000, after taking into account the sale of \$10,000,000 series "C" ten-year gold bonds, less the retirement of \$5,000,000 series "B" gold bonds and sinking-fund retirement of first-lien bonds. The net increase in total indebtedness during the nine months approximated \$2,200,000.

**PROFITS EARNED**

Profits earned from all operations during the first nine months, less general expenses, taxes, interest charges, employees' share of profits and provision fund, were approximately as follows:

|   | 1925.        | 1924.        |
|---|--------------|--------------|
| Profit subject to depreciation          | \$11,425,000 | \$11,500,000 |
| Depreciation                            | 2,500,000    | 2,500,000    |
| Depreciation and depletion              | 2,500,000    | 2,500,000    |
| Profit before depreciation, labor, etc. | 8,925,000    | 9,000,000    |
| Depreciation, labor, etc.               | 1,175,000    | 1,175,000    |
| Net profit for nine months              | \$7,750,000  | \$7,825,000  |

The quarterly dividend is payable November 10 to stockholders of record the 17th inst.

## Arizona Rail Line Planning Issue of Bonds

(EXCLUSIVE DISPATCH)  
PHOENIX, Oct. 7.—The cost of the new Phoenix line of the Southern Pacific system presumably will be covered by a bond issue of \$15,000,000, for which approval is sought from the Interstate Commerce Commission by the Arizona Eastern Railroad Company.

This action indicates that the new line, from Phoenix, through Phoenix, to Wickenburg, will be a part of the property of the Arizona Eastern company, to be attached to its present holdings, which include lines between Elmer and Miami, between Maricopa and Phoenix, and between Phoenix and Wickenburg. The Arizona Eastern lines between Chandler and Phoenix and westward to Hassayampa are included within what is called the new Southern Pacific main line.

## ADVERTISING IDEAS CHANGE

Joint Campaigns Win Favor; Salesmanship Lifted to Higher Plane; Bond Houses Next

BY EARLE E. CROWE

As a co-operative proposition, national advertising and publicity have stepped into the foreground as a powerful stimulant for the promotion of sales and good-will. Primarily, these campaigns are for the purpose of broadening markets, but the end is accomplished through a dignified group appeal for the confidence and respect of the public, and not through the old-fashioned hammer-and-tongs methods of each advertiser overplaying his product against those of his competitors. It's another case where joint action demonstrates its superiority over the futile efforts of the individual.

After spending years and several millions of dollars in attempting to win the good-will of the public by campaigns independent of each other, the railroads are now banded together in co-operative advertising and publicity programs. Not so much money and money now spent by the carriers in telling the public how much better their service is than that of competitors, instead, they hammer on the message that all railroads are striving to give maximum of service, even though rates in many instances are inadequate.

**FRUIT GROWERS CITED**

Probably the first notable success in the field of co-operative advertising originated in Southern California with the members of the California Fruit Growers' Exchange. Large sums have been expended in describing the merits of California citrus fruits, and the benefits of this advertising are shared by all citrus organizations in California, whether members of the exchange or not.

Advertising by this method is placed on a dignified plane. It commands the respect of the public, and unquestionably is more than paying for itself, although at times it is difficult to directly trace the results. And what is of outstanding importance, it enables the legitimate enterprises to weed out the unscrupulous parasites that know no code of ethics and exploit the ignorance of the public.

The success of these co-operative efforts is inspiring the desire in many other businesses and industries to develop a group spirit. The investment bankers for instance, are seriously considering a national campaign involving an expenditure of \$500,000, which will be submitted for approval to the members of the Investment Bankers' Association of America at the annual meeting in December. The investment houses realize that prejudices exist against securities, and that the public is victimized by "wild-cat" firms.

While the investment banking business is comparatively new, it has developed a rigorous code of ethics in which the members of the profession take considerable pride. Security buyers, however, are as a rule, unaware of these standards and practices, and they understand the distinction between the investment banker, the broker, and the promoter. Each performs separate functions, but to many people, all three are synonymous with "iniquitous Wall street."

The investment houses are now determined to educate the public to know the difference between investment, speculative and fraudulent securities.

**MONEY SUBSIDIZED**

As outlined by a special committee of the Investment Bankers' Association, the proposed campaign has three purposes. First, to inform the public that there is an organization of security dealers having an earnest endeavor to serve their clients in making investments wisely and safely; second, to create a desire to own securities, thereby stimulating thrift and increasing the number of security buyers; and third, to establish a feeling of pride of possession, thereby increasing the probability of re-establishing the kind of political sentiment prevailing in many sections of the country.

The money for the campaign has been subscribed, and the plans formulated by the advertising committee of the association. The committee has chosen publications that will afford a circulation of 5,000,000 copies, reaching 5,000,000 families. The cost of entering a single home is estimated at slightly more than 4 cents per annum.

Crusades such as this one cannot help but raise the general standard of business ethics. They tend to eliminate a school of salesmanship that teaches the best campaign is the one that forces sales, whether in the best interests of the buyer or not.

**London Daily Radio**

BY ARTHUR W. KIDDY  
BY WIRELESS-EXCLUSIVE DISPATCH  
(Copyright, 1925, New York Evening Post, Inc.)  
LONDON, Oct. 7.—Financial markets were unsettled to some extent today by the shipment of large amounts of gold to New York.

The money market was somewhat firmer, although the movement was not unexpected. The meager supply of bills prevents the market from firming materially. Gift-edged stocks were inclined to sag at first, but developed a steadier tone later.

Rails were in better demand in response to loading figures showing a smaller decrease than anticipated.

Speculation in the rubber shares featured the day's activities, and the market in this group closed rather steady, despite considerable profit-taking.

With the advance in the price of crude rubber, speculators turned to the shares of rubber companies with renewed vigor, buying rather indiscriminately. Strength in Dunlop Tire featured, this stock moving up 2 1/2.

British rubber users are joining in the movement to halt the price rise of the commodity, sending a committee to the Colonial Secretary to ask immediate abandonment of the Stevenson scheme. Rubber-growing interests, however, insist that higher wages for labor and other factors would prevent any appreciable increase in output even if freedom in shipments were permitted.

**RUBBER MARKET**

(EXCLUSIVE DISPATCH)  
NEW YORK, Oct. 7.—Profit-taking at the high levels to which prices rose on Tuesday sent prices for the rubber down to a point in the 80s today. This decline was general throughout the entire market, and other leading grades registered losses on an average of about the same figure. The market, however, and rubber control stock, the January-March position, were only off 10 cents from their peak of 85 cents. The market was buoyed up by the news that the latest buying of the past few days had practically all withdrawn from the market. London came over near and off 10 at 47 1/2.

## CITY BOND OFFERING OUT TODAY

Block of \$500,000 for Improvements Located in Town of Girard

Drake, Riley & Thomas and the California Company are today offering an issue of \$500,000 City of Los Angeles Municipal Improvement District No. 37, Serial 6 per cent bonds, due 1929 to 1933, inclusive, and priced to yield 8.75 per cent. District No. 37 is situated in the westerly section of the San Fernando Valley along Ventura Boulevard and Topanga Road, and lies wholly within the city of Los Angeles. Included in its boundaries is the town of Girard.

Proceeds of this issue will be employed in the construction of streets, sidewalks, bridges and other similar works. The town of Girard, now in process of construction, is being sold by the Boulevard Land Company, which, under the terms of its sales contracts, has agreed to assume cost of street construction.

Principal and interest on the bonds are payable from unlimited ad valorem tax against all taxable property in the district, collectable as a part of the general taxes of the city of Los Angeles, and in addition, payment of principal and interest is unconditionally guaranteed by the Boulevard Land Company.

The principal stockholders of the company include Louis M. Cole, Victor Girard, Irving H. Hellman, Marco H. Hellman, E. F. MacFarland, Robert H. Parker, L. D. Sale and Joseph Toplitzky, all of whom are expressly waiving statute of limitations as applied to their individual stock holdings.

The bonds are exempt from Federal income tax and from the California personal property tax.

## New Issue

80,000 Shares  
**Western Dairy Products Company**  
Class A Stock  
(Without Par Value)

Entitled to cumulative dividends at rate of \$4 per share per annum before any dividends shall be paid upon Class B Stock and whenever a dividend shall be paid upon Class B Stock, each share of Class A Stock shall be entitled to receive a further dividend equal to one-quarter of the dividend paid upon each share of Class B Stock.

Dividends payable quarterly March 1, June 1, September 1 and December 1. It is the intention of the management to inaugurate dividends on the Class A Stock December 1, next, at the full cumulative rate of \$4 per share per annum from October 1, 1925. Entitled on liquidation or dissolution, whether voluntary or involuntary, to \$60 per share and accumulated dividends before any distribution to Class B Stock. Redeemable in whole or in part at any time at the option of the Company, upon 30 days' notice, at \$60 per share and accumulated dividends.

Convertible at any time until any date specified for redemption, into Voting Trust Certificates representing Class B Stock at the rate of 1/2 shares of Class B Stock for each share of Class A Stock.

Transfer Agents and Registrars:  
THE SEABOARD NATIONAL BANK OF THE CITY OF NEW YORK  
THE DEXTER HORTON NATIONAL BANK OF SEATTLE

Application will be made to list this issue of Class A Stock on the Chicago Stock Exchange and the San Francisco Stock and Bond Exchange.

Salient features as summarized by Mr. S. H. Berch, President of the Company:

**BUSINESS**

Western Dairy Products Company has been formed under the laws of the State of Delaware to acquire the assets, property (except certain real estate not needed in the conduct of the business), business and goodwill of eleven ice cream companies operating in the States of Washington and Oregon, including such well-known and successful companies as Seattle Ice Cream Company, Inc., Velvet Ice Cream Company, Inc., Olympic Ice Cream Company, Crystal Ice & Storage Company (manufacturer of "Weatherly" ice cream), Hazelwood Ice Cream Company and Mt. Hood Ice Cream Company. These companies distribute ice cream throughout western Washington and northwestern Oregon, in a territory including the important cities of Seattle, Tacoma, Everett, Bremerton, Centralia, and Vancouver in the State of Washington, and Portland, Astoria and McMinnville in the State of Oregon. The present annual production of ice cream is about 2,200,000 gallons. Western Dairy Products Company will operate fifteen plants. The main plants, located at Seattle and Portland, are considered to be among the most modern and best equipped of their kind on the Pacific Coast.

Bringing together under a single management the properties of these various ice cream companies will permit a standardization of general policy and manufacturing processes, a co-ordination of advertising effort, a more economical purchasing system and, with very few additions to equipment, will permit a substantial increase in the present volume of output.

**CAPITALIZATION**  
(Upon completion of present financing)

|  | Authorized       | Outstanding    |
|--|------------------|----------------|
| Class A Stock (without nominal or par value) | 150,000 shares   | 80,000 shares  |
| Class B Stock (without nominal or par value) | \$500,000 shares | 117,000 shares |

\* 215,000 shares reserved to provide for conversion of Class A Stock.

The Company has no funded debt of any description.

**EARNINGS**

The consolidated net profits of the companies which will constitute Western Dairy Products Company, after all charges, including depreciation and Federal taxes, for the two years and seven months ended July 31, 1925, as certified to by Messrs. Scovell, Wellington & Company, Accountants and Engineers, averaged \$474,742.47, or approximately ONE AND ONE-HALF TIMES the annual requirement for the cumulative dividend of \$4 per share on the 80,000 shares of Class A Stock presently to be outstanding. For the first seven months of the current year, the net profits were in excess of the amount required to pay a full year's cumulative dividend on the Class A Stock.

Based upon results already achieved, it is estimated that the net profits for the full year 1925 will amount to \$550,000, or nearly one and three-quarters times the \$4 cumulative dividend on the Class A Stock.

The properties have been appraised by The American Appraisal Company, Milwaukee, and the books and accounts for the two years and seven months ended July 31, 1925, have been examined by Messrs. Scovell, Wellington & Company, Accountants and Engineers. All legal matters connected with the formation of Western Dairy Products Company and this issue of Class-A Stock will be handled by Messrs. Scovell, Wellington & Company, New York and by Messrs. Peters & Powell, Seattle. We offer this Class A Stock, if and when issued and received by an investor, subject to the approval of counsel.

FIRST MORTGAGE  
REAL ESTATE  
GOLD BONDS  
With Other Offerings

Ralph G. Wolf Co.'s First Mortgage Real Estate Gold Bonds are secured by properties in the heart of Los Angeles; properties that have sufficient net incomes to meet interest payments more than three times over; backed by general responsibility and financial worth of the mortgagee, which adds greatly to the security. Consider also the fact that they are Serial Bonds, the annual installments adding to the security of the late maturities.

We have several of our most recent issues that we are offering at par to yield 7% Both short and long maturities in denominations of \$1000 \$500 and \$1000.

We will gladly send you circulars giving full details and invite your inquiries.

### BOND QUOTATIONS

**Trading Listless**  
(BY A. P. MONT WIRE)  
NEW YORK, Oct. 7.—Bond trading was listless today with insignificant price changes. Money rates continued firm, offering a little incentive for an extension of buying operations, except where special developments were an influence.  
A sudden exhibition of strength in St. Paul Junior bonds surprised bond circles, in view of the recent heaviness of these issues. Railroad bond houses attributed the rally to the possibility that threats of an alternative reorganization plan might influence sponsors of the original proposals to declare their plan operative. Gains ranging from 1 to 2-1/2 points were scored by these issues. Other semiprecious rail obligations attracted little interest and most of them worked lower.  
With a few exceptions, industrial issues were very motionless. Recent gains of American Writing Paper Company were canceled and Virginia-Carolina 7s broke more than 2 points. Oil company bonds continued reactionary.  
Following are yesterday's high, low and closing prices of bonds in the New York Bond Exchange and the total bond market.

### MARKET FLASHES

**NEW YORK, Oct. 7.—**Stock prices displayed a much better tone in today's curb market, a number of the industrial mounting to new high levels for the year. Oils showed better resistance to selling pressure, net changes in the active issues being limited to fractions, except in the case of Humble, which advanced a point to 64 3/4.  
New highs in the industrial group were recorded by J. T. Connor, Eureka Vacuum, Insurance Company of North America, Kelvinox and Tobacco Products Export, the last named touching 8 1/2, or nearly three times the year's low.  
Revival of activity in Curtiss Airplane, which approaches within a fraction of the year's high, reflected the announcement of Henry Ford's aviation plans and the widespread interest in the Pullitzer air races this week in which several Curtiss planes entered.  
Talking Machine scored an extreme gain of over 5 points at 25, of which was later canceled, in response to the announcement of a new orthophonic machine of improved tonal qualities.  
Most of the market improved fractionally. Trading in the public utilities was rather quiet with price fluctuations limited to a point or so.

**"I'm on my way to get a Malted Grape-Nuts"**

"Look, they call me. But my little sister's George Duncan—remember on the Daily News. The City Editor just chased me out as an impostor. But first I'll get a Malted Grape-Nut. There's a drink that's worth a 'hoo!' It's the best I ever tasted—and our little sister tells me it's just what I need with good health and enjoyment. I've made it a daily habit."

A drink rich in vigor, energy and flavor—a famous food in a new form

WHAT a glorious drink it makes! Grape-Nuts, old-time favorite with millions—and now in this delicious new form, malted, chocolate flavored and mixed with milk. The most tempting drink you could imagine. Rich! Smooth! Creamy! A drink you'll never tire of.

Try it! One sip and you are friends with a great, new flavor—a flavor that's sweeping the country. Think of the food value it gives you. Here is a drink that's filled with the elements of abounding good health and energy—Malted Grape-Nuts, chocolate flavored. A splendid drink for breakfast—or lunch; it contains enough nourishment to carry you through the whole afternoon. Drink it today—now!

At your favorite soda fountain

**Jury Returns Verdict in Local Air Crash**

Failure to Bolt Control Stick Held Cause

Ashes of Dead Flyers to be Scattered Over Sea

By a "Times" Staff Correspondent  
LONG BEACH, Oct. 7.—Failure of Francis Watson Keerl, 31-year-old Long Beach aviator, to bolt the control stick in the airplane which crashed here yesterday, was responsible for the death of Keerl and Harold B. Schuck, former army aviator and passenger with Keerl in the plane. This was the verdict of a coroner's jury, following an inquest conducted at the McFadyen undertaking parlors here this afternoon.

Testimony of Earl S. Daugherty, prominent aviator and owner of the airplane in which Keerl and Schuck met their death, as well as that of William F. Myer, wealthy aviation enthusiast, and John G. Montijo, local aviator, all of whom witnessed the accident, showed that in taking the fatal flight from the Daugherty field yesterday, Keerl failed to bolt the control stick into its socket, and that during the stress of a whip-stall, the stick came out and the pilot was without control of his ship. The plane, a Curtis JN-4D, fell from an altitude of 1500 feet and was completely wrecked. Both aviators were horribly mangled and crushed.

Funeral services for both Keerl and Schuck will be conducted tomorrow at the McFadyen parlors. The bodies will be cremated and the ashes will be strewn over the Pacific Ocean from a plane driven by Earl S. Daugherty. A squadron of planes from Southern California fields, both government and commercial, will accompany Daugherty on his sad mission and will act as a guard of honor.

**TWO JAILED ON MORALS ACCUSATION**

Youths Declared to Have Lured Girl from Home for Party at Mission Beach

Coming as the aftermath of an asserted wild automobile ride and party at Mission Beach, near San Diego, Clyde Henigar and Sam Provisor, youthful clerks, and Miss Bobbie Dietrich, 18 years of age, were charged with contributing to the delinquency of a 15-year-old girl in a complaint, filed yesterday in Judge Archibald's Juvenile Court.

According to the complaint, which was filed by Dep. Dist. Atty. Joon, the two youths and Miss Dietrich persuaded the girl to remain away from her home for two nights and accompany them to Mission Beach, where Miss Dietrich and Henigar were said to have occupied the same room in the presence of the girl.

Henigar and Provisor were arrested on the complaint and arraigned late yesterday before Judge Archibald, who set their preliminary hearing for the 15th inst. Miss Dietrich was said to be ill in bed and official said she will be taken into court later on the complaint.

Filing of the complaint and the arrests followed a report to the police of the girl's disappearance from her home.

**Wife Given Pay of \$25 Weekly as Housekeeper**

When Mary B. Thompson left Henry S. Thompson three months after their marriage, she presented him with a bill for \$300 for her services as housekeeper at the rate of \$25 a week, he told Judge Gates yesterday.

"I paid her off and took a receipt," Thompson concluded and showed Judge Gates the receipt.

"The matter seems to be thoroughly disposed of," Judge Gates remarked, as he granted Thompson a decree.

**RAILWAY APPLIES FOR TUNNEL FRANCHISE**

To provide for the routing of North Spring-street cars through the North Broadway tunnel while the new Spring street is being laid out and the new City Hall is being built, the Los Angeles Railway yesterday applied to the City Council for the necessary franchise to lay tracks in the tunnel. The rerouting was recommended by General Manager Marsh of the department of public utilities and transportation.

**WILL HOLD AUTO SHOW**

The Van Nuys Automobile Association has been granted permission by the City Council to hold an automobile show in a tent at Sherman Way and Calvert street.

**ZEPLIN COMPANY TO BUILD AIRSHIPS HERE**

Naming Joseph C. Camron of Los Angeles as State agent, Zeppelin, Inc., a New York company, yesterday filed articles of incorporation with Secretary of State Jordan at Sacramento. It is understood the corporation intends to center its aircraft manufacturing interests in this city. The company, whose directors reside in New York, is capitalized at \$200,000, and the total for last month was fifty-one cases.

**NO NEW CASES OF PARALYSIS FOUND IN CITY**

No new cases of infantile paralysis were reported in Los Angeles yesterday, according to an official statement issued by City Health Officer Parrish. The records at the city health department show the number of cases reported daily this week to date as follows: Sunday, none; Monday, two; Tuesday, none, and Wednesday, none. The total number of cases this month to date is four, and the total number since January 1, last, is 188, the records show. The total for last week was five cases, and the total for last month was fifty-one cases.

**GIRLS TAKEN IN TIA JUANA**

Los Angeles Deputies Return From Border Resort After Night Spent in Jail Cell

Deputy Sheriffs Hoffman and Mendoza, after a series of hectic adventures in Tia Juana, yesterday brought back to Los Angeles, Oelina Morago, 15 years of age, and her sister, Josepha, 16, to be turned over to the juvenile authorities. The deputies spent Monday night in a Tia Juana jail for taking across the line Rosario Medina, accused of inducing the girls to leave their home in San Fernando. One of the girls, it is said, "was found in a Tia Juana resort."

The deputies were held by the two girls, who are daughters of Mr. and Mrs. Setimo Morago of San Fernando.

They returned to Tia Juana after lodging Medina in the San Diego Jail. They found the missing girls, and were about to bring them home when they were arrested for the alleged kidnapping of Medina. General Rodriguez of Lower California ordered their release after a night in jail on intercession by Sheriff Trueman Way and Calvert street.

The deputies were permitted to return to the United States with the two girls. Medina is still in Mexico.

SE OF POLITICIANS

ANDAL HENDERSON  
to be an issue in California's State election  
both State and Federal offices have already  
Cryer have been convincing proof that  
can Canal are vote-getters, regardless of the  
of these projects.  
Judge Joseph C. Crill, who has announced  
from the Tenth District, took up the subject  
All-American Canal and gave the Nation  
ing.

PEN POINTS

A "clean American play" is  
ing to mean "clean—for America."  
Ten billion for good roads!—the  
last poster, says all, is a  
debt!

Modernism: One youth  
to make an article; also  
to sell it.

Matrimony is enjoyable after  
become reconciled to having  
body describe your faults.

Let other lands have such  
nopolies as they can get; America  
has a monopoly of America.

Man is an optimist by nature.  
He seldom sees those worse  
than himself, but only those better  
off.

If he is pretty and a woe  
the ladies he usually thinks he  
wife doesn't understand him.

The ark wasn't the only  
tion that contained a little of  
everything. There's the drug store  
anywhere.

A conservative is one who  
rather see trousers bag at the  
knees than all over.

"Funding an obligation" sounds  
wonderfully impressive, but it just  
means paying up.

The word "genius" usually  
you can't think of the right  
to describe a little ability.

American gossip: "The Browns  
are queer, spending money for  
steak when there isn't a pig in  
the family."

Thousands in America are  
gry. But they grimly struggle  
until they get down to zero  
weight.

Philosophy is what persuades  
husband that, after all, it is  
chivalrous thing to give to his  
wife.

Man is funny. When poor  
he knows that money alone is  
good. But when he gets rich he  
says "How great I am!"

Why worry about making  
money more lasting? In a  
while Ford will have it all  
and he'll arrange it.

Consistency means you have  
as far as you can and so old  
self with the belief that there's  
nothing farther on.

Some women grow old before  
they know it and some before  
they let anybody else know it.

Correct this sentence: "This  
makes me look younger," said  
"but I really prefer the other  
one."

A bolt on the neck isn't the  
thing that makes a man hot  
under the collar.

A woman, as a rule, selects  
new dress or hat with more  
than she uses to select a husband.

A man may wake up to find  
himself famous, but he is more  
likely to get that way by not being  
famous.

The person who lives to a  
old age just drops off instead  
of being knocked off.

The man who makes a business  
of going about seeking pleasure  
soon loses interest in his business.

RIPLING RHYMES  
IN RICH ATTIRE

The undertaker's daughter,  
has a seal skin coat; she sports  
on the water in her own  
boat. For motorists are  
rules unheeding, they gambol  
their death. They wish to  
faster than grim disaster to  
inviting chore. There is no  
of slaughter, details too  
spring; the undertaker's daughter  
she buys a diamond ring, and  
makes a heavy payment on  
pink and green and other  
rings and buys a timepiece  
experience has taught her that  
the speeder flies not  
daughter need not  
She'll buy her jewel chain

Gentleman's Estate For Sale By Owner

This gentleman's estate is the show place of San Diego County. It consists of 90 acres, 56 of which are in citrus-bearing land, modern house, complete irrigation system. It is 18 miles from San Diego on the highway. Income from citrus land this year, \$10,000.  
This charming estate will be sold at a low price and on reasonable terms.  
Send the coming week-end in San Diego and visit this place. For particulars write or see R. T. Robinson, owner, 615 Commonwealth Building, San Diego, California.

Efficient All Day—Every Day

No more headaches, no pains, no off days, no days off, no dragging misery for women—either in the office or home.

Now, thanks to A-Vol, women can feel fine all the time, look well, be cheerful and efficient.

These little snow white tablets are real miracle workers in relieving periodic pains, headaches, tension, overstrung nerves, neuralgia and colds. They act almost instantly, yet are perfectly harmless and positively do not depress the heart or impair the functioning of the central nervous system. It's a new formula that beats everything else in action and pleasant after effects. The favorite of

Man is an optimist by nature. He seldom sees those worse than himself, but only those better off.

If he is pretty and a woe the ladies he usually thinks he wife doesn't understand him.

The ark wasn't the only thing that contained a little of everything. There's the drug store anywhere.

A conservative is one who rather see trousers bag at the knees than all over.

"Funding an obligation" sounds wonderfully impressive, but it just means paying up.

The word "genius" usually you can't think of the right to describe a little ability.

American gossip: "The Browns are queer, spending money for steak when there isn't a pig in the family."

Thousands in America are gry. But they grimly struggle until they get down to zero weight.

Philosophy is what persuades husband that, after all, it is a chivalrous thing to give to his wife.

Man is funny. When poor he knows that money alone is good. But when he gets rich he says "How great I am!"

Why worry about making money more lasting? In a while Ford will have it all and he'll arrange it.

Consistency means you have as far as you can and so old self with the belief that there's nothing farther on.

Some women grow old before they know it and some before they let anybody else know it.

Correct this sentence: "This makes me look younger," said "but I really prefer the other one."

A bolt on the neck isn't the thing that makes a man hot under the collar.

A woman, as a rule, selects new dress or hat with more than she uses to select a husband.

A man may wake up to find himself famous, but he is more likely to get that way by not being famous.

The person who lives to a old age just drops off instead of being knocked off.

The man who makes a business of going about seeking pleasure soon loses interest in his business.

RIPLING RHYMES  
IN RICH ATTIRE

The undertaker's daughter, has a seal skin coat; she sports on the water in her own boat. For motorists are rules unheeding, they gambol their death. They wish to faster than grim disaster to inviting chore. There is no of slaughter, details too spring; the undertaker's daughter she buys a diamond ring, and makes a heavy payment on pink and green and other rings and buys a timepiece experience has taught her that the speeder flies not daughter need not She'll buy her jewel chain need not toll or spin, while go forth with baskets to speeders in. And she's drinking the deadly poison although the dealer says show them where they wise ones off implore them to step booties fly, and so they only bore them and so they die. WIFE SLAYER BOWS TO FATE

Stands on Guilty Plea and Draws Life Term

Shot Mate When, He Said, She Violated Fidelity

Forsook Priesthood to Wed Woman He Slew

Despite the fact that fellow-prisoners in the County Jail raised a fund for his defense, James McKibbin yesterday refused to withdraw a plea of guilty to slaying his wife, Della McKibbin, and was sentenced, according to an agreement with the District Attorney's office, to life imprisonment in San Quentin. Sentence was passed by Judge Hahn.

McKibbin shot and killed his wife and tried to commit suicide after he said he found she had been intimate with other men. The decision not to change the guilty plea was reached at a conference between McKibbin, his nephew, Asst. Dist. Atty. Fred Rooney of Topeka, Kan., and Chas. R. Bush, attorney. Rooney arrived here Tuesday to aid in the defense. Although McKibbin was penniless and unable to finance a proper defense before he agreed to plead guilty, it was revealed yesterday that he is a graduate of Belfast University and studied eight years for the priesthood, giving up the work to get married shortly before ordination.

BOY LIFE SURVEY TO BE HEARD BY CLUB

A survey of boy life in Los Angeles will be presented by Dr. R. D. Robinson, chairman of the boys' work committee of the Rotary Club, at the luncheon tomorrow noon at the Biltmore. The survey was sponsored by the Rotary Club and was compiled by Prof. E. S. Bogardus of the University of Southern California.

CITY MOTHERS' BUREAU TO OBSERVE FOUNDRY

The eleventh anniversary of the founding of the City Mothers' Bureau will be celebrated on the 28th inst. at a tea to be given in the bureau's new offices in the International Building, where the organization will be located after next week. The following evening, the 29th inst., the City Mothers will give a public dance and Haloween party at Korbel Hall, 1849 East First street.

BRIGHT TO ADDRESS MASONS

Reynold E. Bright will address the Masonic Club of Los Angeles at its luncheon in the Alexandria Hotel tomorrow noon. Mr. Bright's subject will be "Fun, Wit and Sentiment in Masonic History." Everett Mattoon, bass, will sing several numbers.

First Programs Delivered  
Colonial Dames furnish Robert Roper, president of Los Angeles Motor Car Dealers' Association, and J. S. Woolcott of salon committee, with official souvenirs.

Young Veteran Charged With Slaying Rival

Leland T. Harder, young Monrovia war veteran, was held to answer without bail yesterday by Justice Scott on a charge of murder in connection with the slaying of J. W. Suther a week ago.

Harder's defense, it was indicated, will be the "unwritten law." He asserted he shot Suther when the latter failed to heed warnings to leave Mrs. Harder alone.

The shooting took place in front of Suther's home at 4418 Charles street, Vernon.

WOMEN KEEN CAR BUYERS

Show Proves She Who Guards Exchequer Insists on Full Value in Motor World

Slow pulsing rhythmic undertone, deep boom of basso, tenor-ous modulation—all blended into orchestral symphony. The morning stars singing together? No. The united voice of the motor cars, each in its allotted space upon the stage; each sounding its own special note of efficiency, in chorus of modern locomotion.

Dignity of the classical is theirs; women long have captained the family expenditures, willingly accepting the responsibility with its attendant praise or blame.

Of the many thousands visiting the closed car salon, it is declared that a very high percentage have been women, and during the last day, the exhibit, closing on Friday evening, this ratio of feminine interest is not likely to diminish.

Here is assembled all that has been created of automobile perfection, throughout the years, since the advent of the first "horseless carriage."

Each of these creations stands apart in the circle of its own efficiency, each proudly boastful of its particular points of superiority. Each exalting a sort of personality. The aldermanic type; the alert business man; the ponderous retired capitalist; the keen political leader; the busy little get-there person; the smoothly-groomed Beau Brummel.

Which will you choose as your road companion? If you are a married man, the head of a family, you may have notions preconceived as to which car will be yours; but, if the manager of the closed car association is correct in his deduction, you will have little of the choosing.

WOMEN KEEN JUDGES  
"Women are the keenest judges of points in motor cars," said Burt Roberts, "and in a great percentage of cases, theirs is the deciding voice. Time was when women looked first to the inner fittings of their car-to-be the vanity case, the bouquet-holder, the color of the upholstery; but now, they discriminate as to the mechanical features and most who visit here are versed in their field."

Even more informed than are the masculine members of the family. The young people also, take an important part in the selection of the family car. The high school boy and girl, who know all the points of every make.

"Yes," chimed in another member of the organization, "I was surprised to hear rather an elderly woman, ask, in regard to the car under consideration by her husband, just what traction the tires possessed and how made."

er keen inquiries, proving herself accurately informed.

Cars are exhibited in the salon now taking place, from the most humble to the highest, and it is interesting to know that to a student of motor-car buying, there is much philosophy in the manner of choice. Here is exhibited human nature at its most natural. "First choice," said the man, "is usually one of the cheaper cars, a sort of breaking in to the motor world, whether the purchaser be rich or poor. Next comes an exchange for a better, or at least a higher-priced car. The two first-purchase cars are the lowest priced and the highest priced. Those having little means, choosing as they must; those of ample means, having decided to travel, buy the best at once."

Between the two extremes, there is much exchanging and trading in, it seems. Always, humanity wishes to go higher in the scale of luxury. It takes no time for any person to become accustomed to wealth and what it will obtain. There seems to be innate in everyone a latent response to the call of luxury.

WOMEN PARTICULAR  
The cars, assembled at the exposition, diademed to be labeled: No written or printed word proclaims their claims to consideration; no names are visible. If you visit there, you are presupposed to be motor wise, to know at a glance, by contour of body, radiator and other features, the various makes. Not to be thus informed, is to be not in the auto-know; so, you see, you really ought to know, lest you appear newly arrived from the sticky regions of nowhere. If you do not recognize the lines, the radiators, the bodies, there are the emblems, each redolent of the roadability of its bearer. The golden lion, the flying goddess, the Mercury wings; you must be unduly stupid not to be familiar with them all!

Women, I am told, must be satisfied to the last detail, when selecting the family car. They not only scrutinize the mechanical features, the exterior appearance, but they are prone to try out the fit and comfort of the seats, and to try them determinedly, with reference to the long drive. And why not? Is not the motor car the outdoor home of the family? Its furnishing, as well as its durability, is equal in importance to such items in the house. In fact, here, as in the household, the family exchequer is concerned, and

QUARTET IN OIL FRAUDS CONVICTED

Jury Returns Verdict of Guilty After Half Hour of Deliberation

Climaxing a two-weeks' trial in which prosecution and defense counsel bitterly contested for an advantage, the jury in the trial of W. L. Barnard, Drew Haven Dunn, R. S. Dennison and R. H. Tunc, accused of using the mails to defraud, yesterday returned a verdict of guilty on all seven counts against the four defendants within half an hour after they had received their instructions from Federal Judge Henning.

But three ballots were taken, and so swiftly did the jurors reach a decision that the court had hardly been vacated by Judge Henning than they announced a verdict.

Motion will be filed today for a new trial and arguments will be heard on it Monday.

Under the seven counts the four men are liable for a fine of \$35,000, and thirty-five years in prison.

H. L. Arterberry and Maurice Norcop, special assistants to the Attorney-General, prosecuted the case.

Barnard, Dunn, Dennison, Tunc and O. E. Cook, a fugitive, were the principal stockholders of the Huntington-Hawthorne Oil and Gas Company, which operated in the Montana and Hawthorne districts, and at Huntington Beach.

More than \$500,000 is said by postal inspectors to have been obtained from investors. Several meager dividends were paid.

Another Negro Seized on Narcotic Sale Charge as Smith is Found Guilty

While his asserted "boss," George Smith, said by Federal narcotic agents to be the king of Central-avenue drug dealers, was being tried and found guilty in Federal Judge James's court yesterday, Walker Tipton, also colored, was arrested on a drug-sale charge and within a few hours was arraigned before United States Commissioner Turney and then indicted by the Federal grand jury.

Smith was found guilty by a jury within an hour after it had retired and will be sentenced Monday. He was charged on three counts of violating the Harrison and Jones-Miller narcotic acts, but was adjudged guilty of only one charge, the sale of morphine. One count was dismissed during trial and the jury disagreed on the third, charging possession.

SOMODID LUMBER AND SHINGLES

## Arctic Adventurers Back After Long Stay In Icepacks of the North

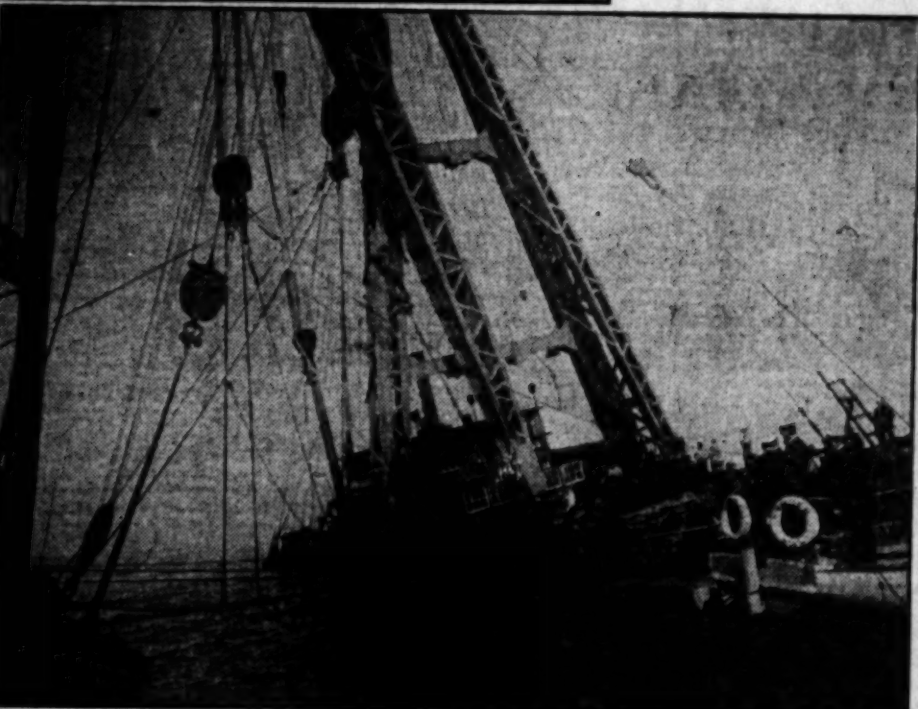

**Has All the Appearance of Real Warfare;** but in reality the above is only a portion of the Fourth Division of British Artillery "moving to front" during the recent military maneuvers at Hampsphore, England since 1913. (P. & A. photo.)

Frustrated in Attempt to drift over the North Pole, the steamer Maud, exploration ship of Capt. Roald Amundsen, is back in port after a cruise which reads like one of Joseph Conrad's stories. During its months in the icepack of the frozen Arctic regions the Maud narrowly escaped annihilation in the grinding ice masses, but her crew regard the adventure as prosaic. Only one man was lost, an engineer whose body is now drifting over the Arctic wastes of an icy casket. Above at left—Members of crew on the Maud's deck. Above, right, two members of the crew. Below, left—The Maud as she appeared upon her arrival at Nome, from the air. (P. & A. photos.)

**A Bit of Action in Season's First Gridiron Upset** is pictured above. Photo shows Halfback Daily of Nebraska, shortly after he Grange's forward pass on his own 38-yard line and raced for the first touchdown against University of Illinois. Nebraska's Illinois was against the dope surveyed by the leading football pundits of the nation. (P. & A. photo.)

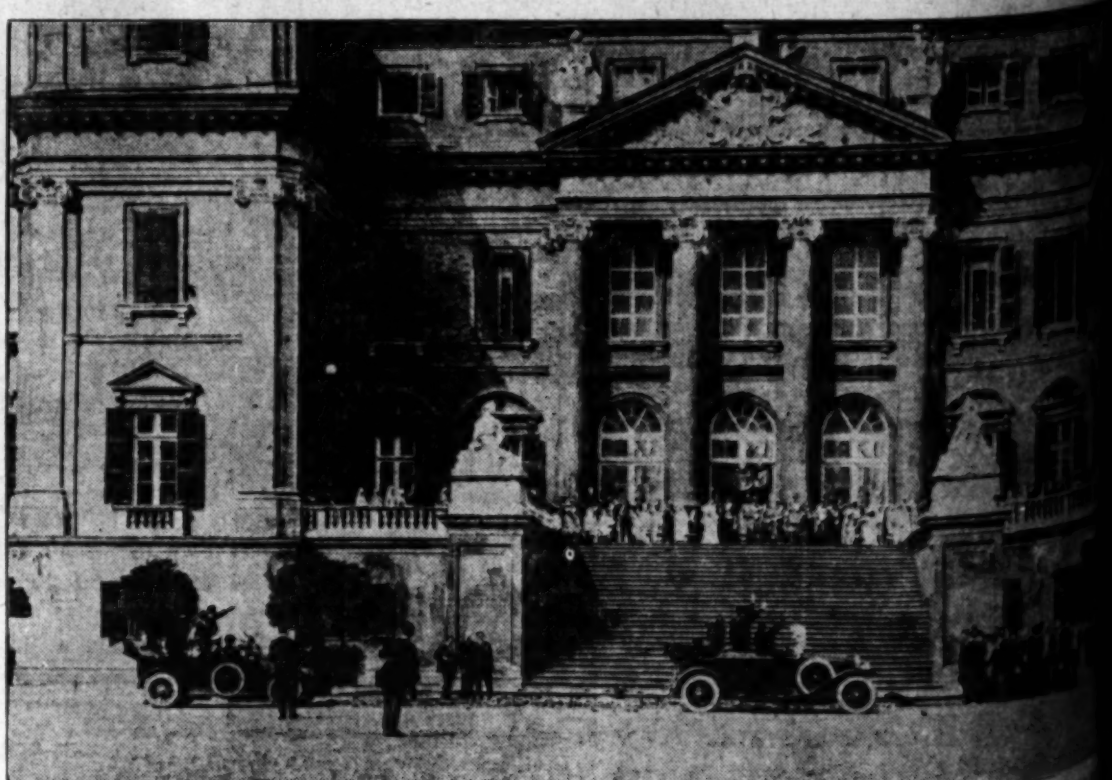

**Efforts to Recover Any Bodies Which May Be in S-51** were ordered terminated Tuesday by the Secretary of the Navy. The action was taken upon recommendation of Rear-Admiral Christy on the ground that conditions were adverse to rescue work. The bodies of the victims will be recovered later during salvage operations. Photo at left shows the two mighty sea cranes, Monarch and Century, straining to lift the submarine. Photo at right shows diver preparing to go down to hulk. (P. & A. photos.)

**The Fifth Matrimonial Adventure of Almon**  
(above,) millionaire heroine of a thousand  
has just been consummated in Paris with  
- miage to Prince Alexander Gelatze.  
bride is 58 years old. (P. & A. photo.)

**Just One Debt Commission After Another** is the portion of treasury officials at Washington. Above is pictured the Czecho-Slovakian funding commission, recently arrived on our shores. Left to right—Lippansky, Brabenec, Pospospil, Kucera and Koneeny. They are seeking loans for their government. (P. & A. photo.)

Though Pomp and Display Were Conspicuously Abent from the ceremonies attending the wedding of Mafalda of Italy to Prince Philip of Hesse, the occasion was not devoid of the picturesque. The royal party on castle steps near Turin, Italy. (P. & A. photo.)

DAY MORNING.
